

South Ayrshire's New Recycling Service – 2018 Roadshows – October

We're making changes to your recycling and waste services in the coming months to increase the quality of the waste that we collect for recycling, while also increasing the amount of materials we recycle.

If you currently have individual wheelie bins for your household, two new smaller bins for **'Paper, Card and Cardboard'** and **'Glass Bottles and Jars'** are being introduced. The use of your existing blue bin will change to accept only **'Metals, Plastics and Cartons'** and we will be relabeling this bin with more information before the service changes. Please continue to use your blue bin as normal until it is relabelled. Uplift of your **'Non-recyclable'** green bin will change through the new service, with collections taking place every three weeks.

If you use a shared communal service, your existing bins will be replaced and **'Paper, Card and Cardboard'** will be collected in the new grey lidded bin, **'Glass Bottles and Jars'** in the purple lidded bin, and **'Metals, Plastics and Cartons'** in the blue lidded bin. Uplift of your **'Non-recyclable'** green lidded bin will change through the new service, with collections taking place every three weeks.

To make this process as easy as possible your collection days will remain the same.

We're holding a series of roadshows in your area in October to let you find out more about the new system, with staff on hand to answer your questions.

Location	Time	Date
Ayr Town Hall	2-4pm	Monday, 22 October
Troon Walker Hall	6-8pm	Monday, 22 October
Dundonald Montgomerie Hall	6-8pm	Tuesday, 23 October
